## Who We Are

Since 1947, IURA has represented REALTORS® throughout Monroe, Owen, and Greene counties. We provide the tools, education, and advocacy that empower our members to serve clients—and their communities—at the highest level. Our collaborative culture strengthens both the real estate profession and the region we proudly call home.

## Economic Development & Housing Advocacy

Advocacy is at the heart of Indiana Uplands. Our members serve on nonprofit boards and partner with municipalities to expand housing access, modernize zoning, and support homeownership. As small business owners, REALTORS® fuel the local economy and use MLS data to inform community planning.

## Local Grant Initiatives

Indiana Uplands REALTORS® proudly support local nonprofits and housing efforts. With help from NAR and IAR, we secure funding that benefits Monroe, Owen, and Greene Counties—supporting affordable housing, first-time buyer education, and community revitalization projects.

## Community Giving

In 2024, our association contributed \$28,968 to local nonprofits through community grants—funds donated directly by our members at events throughout the year.
